

"People have all kinds of choices in terms of size and location, and they really can customize what they would like. There's a vibrancy embedded in the neighborhood and the greater community and that creates excitement and the opportunity to continue to be educated. We offer innovation, fitness and overall wellness." — Sharon Harper, The Plaza Companies

Vi at Silverstone in Scottsdale is a 2011 RED Award winner.

The common dining area at Vi at Silverstone. Summit Builders was the general contractor and DAVIS was the architect.

Vi at Silverstone also opened in 2010 on 32 acres and offers 270 independent-living units to Northeast Valley seniors. Developed by The Plaza Companies, built by Summit Builders and designed by DAVIS, the \$195M project is all about individual preferences.

More importantly, says Sharon Harper of The Plaza Companies, it offers seniors an abundance of choices.

"People have all kinds of choices in terms of size and location, and they really can customize what they would like," Harper says. "There's a vibrancy embedded in the neighborhood and the greater community and that creates excitement and the opportunity to continue to be educated. We offer innovation, fitness and overall wellness." ■■
